

Triton Environmental Consultants Ltd. and AFN Enterprises LP Form Strategic Partnership Agreement to Advance Indigenous Economic Participation and Environmental Stewardship

Calgary, AB / Windermere, BC – October 2026 – Triton Environmental Consultants Ltd. (Triton) and AFN Enterprises LP, the economic development arm of the **ᑭᓴᓴᓴᓴᓴ First Nation**, have formed a collaborative partnership agreement that will support the pursuit of environmental consulting opportunities throughout southeastern British Columbia.

The agreement establishes a framework for the two organizations to work together on environmental assessment, permitting and regulatory applications, environmental compliance and effects monitoring, aquatic and terrestrial resource management, and other environmental consulting services associated with mining, energy, resource development, transportation and infrastructure, and ecological restoration projects.

Through this partnership, revenues generated from jointly pursued opportunities will support AFN Enterprises LP's economic development and investment initiatives on behalf of the **ᑭᓴᓴᓴᓴ First Nation**, creating long-term economic benefits while strengthening Indigenous participation in environmental stewardship and responsible resource development.

About Triton Environmental Consultants Ltd.

Triton Environmental Consultants Ltd. (Triton) has been a trusted partner in environmental consulting since 1989, facilitating responsible development across Western Canada through practical, science-based environmental services. The company employs more than 400 professionals and operates from offices throughout British Columbia and Alberta, serving clients in the energy, mining, transportation, infrastructure, municipal, and renewable energy sectors.

Triton specializes in environmental assessments, permitting and regulatory applications, construction environmental monitoring, aquatic and terrestrial biology, reclamation and remediation, and Indigenous relations. Guided by a long-standing commitment to Indigenous partnerships, Triton has developed relationships with Indigenous communities across Western Canada and continues to support meaningful participation in environmental management and resource development projects.

About AFN Enterprises LP

AFN Enterprises LP is the economic development entity of **ᑭᓴᓴᓴᓴ First Nation**. The organization works to identify, develop, and invest in business opportunities that contribute to sustainable economic growth and long-term prosperity for the Nation and its members. AFN Enterprises maintains a diversified portfolio of business interests and strategic investments focused on creating lasting community benefits and economic self-determination.
